

So!

So unique!

So practical!

So economical!

So comfortable!

This is how it works!

Moving

Transport goods on the **xetto**® in a handy and flexible way.

Lifting

Lift loads of 250 kg up to 106 cm just by pressing a button.

Loading and unloading

Load the goods including **xetto**® on the transport vehicle.

So!

xetto® is a transport trolley, lifting table and companion in one – developed for every area of application to move, lift, load and unload heavy weights. This unique lifting system even travels with you - So!

For professionals, who constantly optimise their working methods and processes. Specially developed for a modern working world, that is **xetto® - so unique.**

Load, transport or unload. Logistical versatility combined with innovative technology, that is **xetto® - so practical.**

Manoeuvre loads of up to 250 kg quickly and easily. Cost-efficient and timesaving, that is **xetto® - so economical.**

The innovative loading and transport system with the comfort of a mobile worktable is easy on the back and relieves your employees, that is **xetto® - so comfortable.**

A promise!

We take care of you

A product is only as valuable as its customer service. We know that. That is why regular function tests and a replacement unit during maintenance and repair are a matter of course.

You can test

Would you like to test this small miracle of logistics? We will provide you with a test device for one week. Contact us and we will deliver the **xetto**[®] directly to your door.

Test now!
